

Emerging concepts and Novel Mechanisms in Organ Fibrosis

10 - 11 Oct 2024 | Málaga, Spain

Chairs *

Adrián Ruiz, University of Málaga-IBIMA, Spain

Ana Pardo-Saganta, Justus Liebig University Giessen, Germany

* More information, contact to adruiz@uma.es or ana.pardo-saganta@innere.med.uni-giessen.de

Key Sessions

- Cell heterogeneity
- Molecular niche in fibrosis
- Aging, senescence, mechanotransduction
- Mechanisms of fibrogenesis: Developmental pathways, cell-cell communication, microenvironment
- Regeneration and repair
- Novel models and technologies to study organ fibrosis
